REMARKS

The undersigned acknowledges the courteous treatment received during the course of an interview held with Primary Examiner Graham held on this date.

During the interview, all of the art was reviewed and it was discovered that patents to Stone and Jehn, already of record, but not applied to the claims disclosed systems for improving golf skills using a light beam directed at the golf ball for use by a golfer to improve his or her swing.

In view of the foregoing, the claims have been amended in the light of these references. Claim 1 has been extensively amended to recite in great detail the features of the present invention and all remaining claims have been canceled. In addition, the claimed subject matter is being limited to the details called for in claim 1. The ridges added to par. e is shown in Fig. 4 of the drawings and elsewhere.

The Examiner is requested to call the undersigned or Mr. Kroll if further changes are required to obtain allowance of the application.

A favorable action is solicited.

Respectfully submitted,

LEONARD BELKIN
